

CURRICULUM VITAE. Pedro Pablo Arroyo Alba

Pedro Pablo Arroyo Alba was born in Madrid, Spain, in 1969. He is currently Director of CA-DESIGN Architecture and Urban Planning, Shanghai, China. Trained as architect, engineer and urban planner. He has obtained a PhD in Architecture by The Polytechnics University of Madrid, Spain, and a PhD in Engineering by The University of Tokyo, Japan. Post-Doctorate Researcher in Science & Technology for the European Commission. Visiting Researcher at the National University of Cordoba, Argentina, and the University College London, Great Britain. He has lectured and taught a number of Architecture workshops in Italy, Germany, Thailand, Korea, Japan and China. His architecture and urban designs have received several national and international awards, and have been exhibited and published worldwide. His first public project in China, the Pucang Pedestrian Bridge in Qingpu, has been awarded in the X Spanish Architecture Biennale organized by the Architects Association of Spain as one of the 34 best buildings of the last two years designed by a Spanish architect worldwide. He is the correspondent in China of the magazine *Pasajes de Arquitectura y Crítica* and is also frequent collaborator of other prestigious international publications.
